Ordinary income declined $17.7 \%$ to $¥ 11,784$ million, and net income attributable to owners of the parent company declined $19.7 \%$ to $¥ 8,016$ million.

Sales of ATTENIR Cosmetics decreased $2.7 \%$ to $¥ 12,337$ million, as direct store sales declined due to the impact of COVID-19, which outweighed an increase in overseas sales where online and catalogue sales and crossborder e-commerce sales to China were strong.

(4) Forecasts for the fiscal year ending March 31, 2022

Looking at the future economic environment, the Japanese economy is expected to recover to a certain degree due to the rollout of vaccinations for the COVID-19 pandemic and other factors, however the outlook for the complete containment of the virus remains uncertain. In addition, new needs created by COVID-19 and changes in lifestyles are expected to grow further.

Under these circumstances, based on the policies of the Medium-Term Management Plan, the first year of which is the fiscal year ending March 2022, the Group will work to eliminate new "negatives" that have arisen as a result of the COVID-19 pandemic, and respond quickly to changes in the social environment to achieve sustainable growth in Japan and overseas. In addition to the uniqueness of our products, which is one of FANCL's greatest strengths, we will further strengthen initiatives to achieve OMO that is unique to FANCL by utilizing our multi-channel structure (online and catalogue, direct store, wholesale, and overseas).

In the Cosmetics Business, for FANCL Cosmetics we will carry out a renewal of basic skin care products to cultivate customers with a high level of continuity, and will also launch new special care items. For ATTENIR, we will aggressively launch new products such as Dress snow, while positioning overseas as a growth driver and strengthening cross-border e-commerce in China by developing products that meet local needs.
For boscia, in addition to sales via Costco and Amazon, which are performing strongly, we will strengthen our own channel, boscia.com, to increase the ratio of e-commerce sales.

In the Nutritional Supplements Business, in addition to product development centered on Foods with Function Claims products and the periodic renewal of star products, we will strive to achieve growth of Personal ONE by leveraging
the strengths of its scientifically backed services and its extensive product lineup. Overseas, we will aim to expand sales by further strengthening cross-border e-commerce in China and increasing the number of items available via general trade sales.

In light of the above, in the fiscal year ending March 31, 2022, the Company forecasts a $5.1 \%$ decline in net sales to $¥ 109,000$ million, a $3.7 \%$ increase in operating income to $¥ 12,000$ million, a $3.5 \%$ increase in ordinary income to $¥ 12,200$ million, and a $1.0 \%$ increase in net income of $¥ 8,100$ million.

As the "Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29), etc. has been adopted from the beginning of the fiscal year ending March 31, 2022, the above consolidated financial forecast reflects the application of this accounting standard. If the same standard is applied to the fiscal year ended March 31, 2021, net sales would be $3.7 \%$ higher year on year. There is no change in the operating income, ordinary income and net income forecasts before and after the application of the new accounting standard.

## 2. Basic Rationale on Selection of Accounting Standards

FANCL Group currently prepares consolidated financial accounts based on Japanese accounting standards, having considered such factors as suitability for year-on-year comparisons of results.

The Group will continue to assess the situation domestically and abroad with regard to the adoption of International Financial Reporting Standards (IFRS) and will respond appropriately.
