Additionally, as the Company's shares are scheduled to be delisted, it has withdrawn its full-year consolidated results forecasts for the fiscal year ending March 31, 2025 (April 1, 2024 to March 31, 2025). Details are as follows:

3. Reasons for differential and forecast revisions

(Interim period)

In Japan, sales fell short of the previous forecast as a result of factors including sluggish sales in the nutritional supplements business, centered on lifestyle supplements, due to the prolonged impact of an issue with a red yeast rice product made by another company, as well as a downturn in sales of certain FANCL Cosmetics products for which demand had surged ahead of time in the fourth quarter of the previous fiscal year.

Overseas, sales fell short of the previous forecast as a result of factors including the release of treated water from the nuclear power plant which impacted the ability to conduct proactive promotions, as well as intensified competition with local manufacturers.

As a result of these factors, sales, net income, ordinary income and operating income fell short of the previous forecast.

Additionally, the Company recorded an extraordinary loss for expenses related to the tender offer by Kirin Holdings Company, Limited for the Company's shares, etc.

(Full year period)

As stated in the press release dated October 24, 2024, "Notice of Share Consolidation, Abolition of the Provision of Share Units and Partial Amendment to the Articles of Incorporation", the Company's shares are scheduled to be delisted after the prescribed procedures, and therefore the consolidated earnings forecast for the full year period ending March 31, 2025 will not be disclosed.
